

einstein™ LabMate II

URNS ANY TABLET, COMPUTER OR SMART PHONE
INTO A WIRELESS SCIENCE LAB!

Integrated Science
Applications

The ideal solution for schools already
equipped with tablets or computers

COMPATIBLE WITH ALL
OPERATING SYSTEMS

8 BUILT-IN SENSORS

EXPLORATION, ANALYSIS,
CONTENT CREATION & WEATHER
MONITORING APPLICATIONS

TRANSFORMS ANY SCREEN DEVICE THAT ALREADY EXISTS IN SCHOOL INTO A SCIENCE LAB.

With 8 built-in sensors and the option to connect to up to 8 external sensors simultaneously.

The **einstein™** LabMateII works with all the **einstein™** lab applications for elementary to high school

einstein™ LabMateII

8 Built-in sensors

- UVI
- Light
- Temperature
- Heart Rate
- Humidity
- Barometric Pressure
- Heat Index
- Dew Point

Features:

- High Sample rate
- Connect up to 8 additional (external) Sensors
- Offline mode experiments
- Indoor and outdoor experiments
- Auto Sensors recognition
- Internal memory up to 750K samples
- Long lasting Battery
- USB Connection
- Long wireless range Bluetooth (BLE)

The **einstein™** LabMateII and LabMateII Lite include free license to use for the **MiLABEx** software with its 3 sub-apps: The **Lab** for performing experiments, the **Weather Station** for monitoring and exploring climate metrics, and the **Workbook** for building, downloading and sharing content from everywhere

Can be downloaded from the **einstein™** website's download center and App stores

einstein™ LabMateII Lite W/O Sensors

The LabMateII Lite offers an affordable and adaptable solution for educators & students, enabling customization of the logger by adding external sensors tailored to their specific educational needs and budget.

Product Overview:

- Modular Design:** No pre-installed internal sensors, enabling tailored configurations.
- USB Connectivity:** Ensures simple and reliable operation.
- Power Supply** via power cable, no internal battery.
- Sensor Compatibility:** Connect up to 8 external sensors simultaneously from over 60 sensors available in the **einstein™** catalog that cover most curricula topics.
