

It's all about science

The new **MiLABEx** is the most comprehensive STEM learning app we ever made. using a user-friendly interface, advanced science exploration capabilities, simple experiment planning and group-sharing options for a simple science learning experience that also takes the most out of every lesson.

Comprehensive STEM learning

Home and school learning

Online / offline working modes

OTA continuous updates

Mobile and PC learning continuity

Over 30 years of global experience

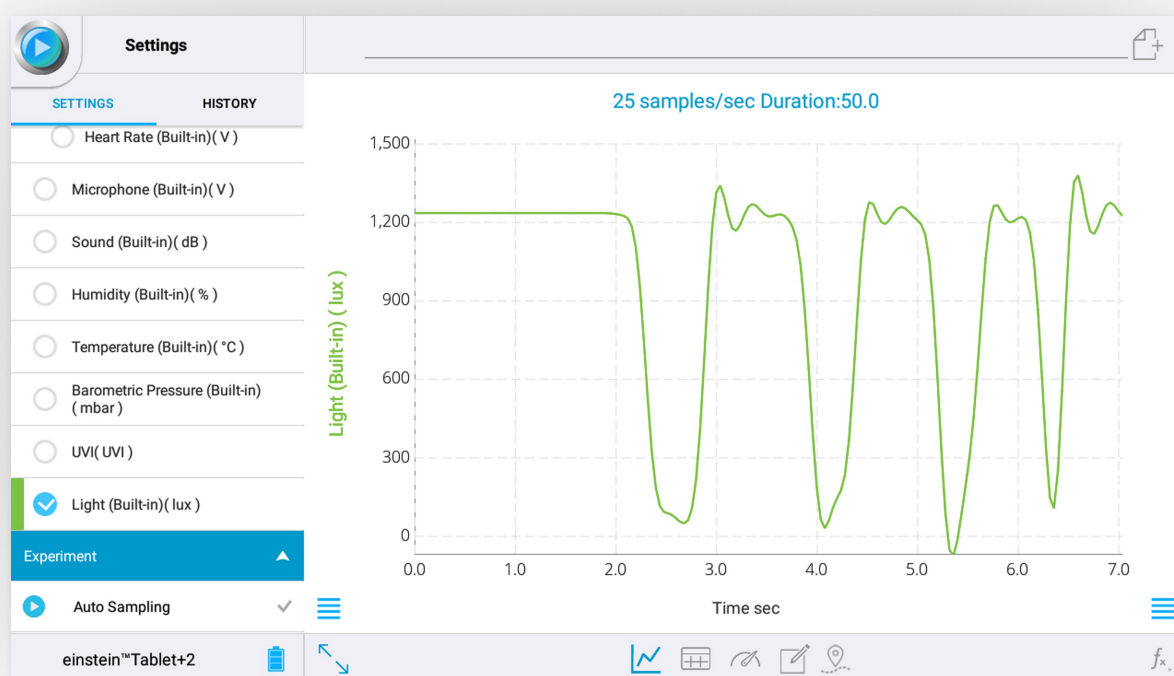

User-friendly interface for teachers and students

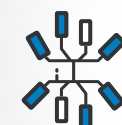

Advanced data exploration

Interactive workbooks

High sampling rate, long experiment duration

Complex experiments including multi-sensors

Quick workgroup experiment setting

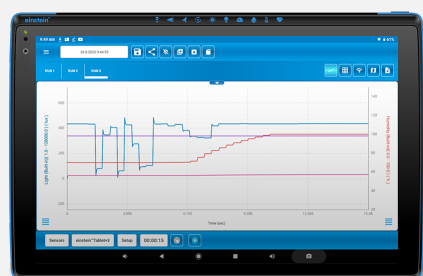

Prediction tool

Multiple data presentations

einstein ecosystem

einstein™ Tablet+3

Portable all-in-one laboratory
+13 built-in sensors

einstein™ LabMateII

External lab for mobile and PC devices
+8 built-in sensors

einstein™ Sensors

over 60 sensors for accurate data-collection and inquiry-based experiments

einstein connected-lab
